A screenshot of a video player interface. At the top, there is a tab labeled "Arabic audio" with a music note icon. To the right of the tab are three icons: a download arrow, a share icon, and a close 'X' icon. The main area of the player shows an orange audio waveform on a black background. The waveform consists of vertical bars of varying heights, representing the amplitude of the audio signal. Below the waveform, there is a progress bar with a white dot indicating the current position. The time "0:04" is displayed on the left and right ends of the progress bar. At the bottom of the player, there are several controls: a speaker icon with sound waves, a "1x" button for volume, a play button (a large triangle pointing right), and two skip buttons (double left and right arrows). On the far right, there are icons for a refresh/circular arrow and a scissors icon for clipping. Below the player interface, there is a small orange icon of a document with an upward arrow and a microphone icon.
